Yu-Wei Wu

Assistant Research Fellow, Academia Sinica

TBA

Bio & Abstract

Masa Murayama

Team Director, RIKEN

Study on Cortical Information Processing

Bio & Abstract

Li-An Chu

Associate Professor, National Taiwan University

TBA

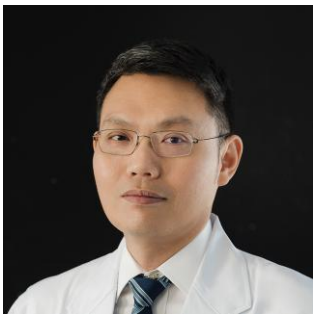
Bio & Abstract

Yoshiyuki Kubota

Project Researcher, National Institute for Physiological Sciences

Large Volume Electron Microscopy Reveals Synaptic Architecture of Cortical Circuits in the Primate Prefrontal Cortex

Bio & Abstract



Wei-Li Wu

Associate Professor, National Cheng Kung University

Strain-specific Microbe Modulates Stress Response via a Phenylalanine Co-metabolite

Bio & Abstract

Yoko Yazaki-Sugiyama

Professor, OIST Graduate University

Learning to communicate by listening and vocalizing during development

Bio & Abstract

Seth W. Egger

Assistant Professor, Taipei Medical University

The neural circuit basis of flexible action policies

Bio & Abstract

Takeshi Imai

Distinguished Professor, Kyushu University

Live tissue clearing with SeeDB-Live

Bio & Abstract

Keizo Takao

Professor, University of Toyama

TBA

Bio & Abstract

Chun-hui Chang

Professor, National Tsing Hua University

The Role of the Perirhinal Cortex in Trace Fear Conditioning

Bio & Abstract

Ryo Nakamura

Assistant professor, Ushimado Marine Institute

Decoding the acoel nervous system: single-cell vs. single-nucleus RNA sequencing in Praesagittifera naikaiensis

Bio & Abstract

Yusuke Nasu

Assistant Research Fellow, Academia Sinica

TBA

Bio & Abstract

Tzu-Ting Huang

Assistant Professor, Tohoku University

Behavioral persistence maintained by C. elegans GPCR kinase GRK-1 in a dynamic thermal environment

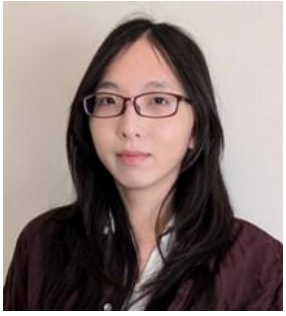
Bio & Abstract

Nao Nakagawa-Tamagawa

Assistant Professor, Kagoshima University

My Specialized Techniques as a Seed of Synergy - In Utero Electroporation (IUE) & Patch-Clamp Recording

Bio & Abstract



Pin-Wu Liu

Independent Researcher

Seeing Synaptic Organization through Liquid-Liquid Phase Separation

Bio & Abstract

Tomohiko Takei

Assistant professor, National Defense Medical University

Neural mechanisms for skilled motor control

Bio & Abstract

Ke-Hsin Chen

Team Director, RIKEN

A multi-contrast MRI brain template for Taiwanese macaque

Bio & Abstract

Chih-Yang Chen

Associate Professor, Tohoku University

TBA

Bio & Abstract

Yung-Che Tseng

Associate Research Fellow, Academia Sinica

TBA

Bio & Abstract

Tomoyuki Mano

Staff Scientist, OIST

Hierarchical processing and polarization encoding in the cephalopod visual system

Bio & Abstract

Kuo-Sheng Lee

Assistant Research Fellow, Academia Sinica

Sensing the Environment and Self in Mammals and Cephalopods

Bio & Abstract
